

PROFESSIONAL ELECTRICIANS SERVING THE NORTH SHORE SINCE 1985

Professional painters, plumbers, carpenters and handymen are great at what they do. But should you trust them to do your electrical work?

Don't trust electricity to amateurs. Instead, call Romitti Electric. Here are just a few reasons why.

We are professional electricians. Electrical work is all we do, and all we have done since 1985. Our electricians are experienced, have a minimum of 8,000 hours of on the job training, and keep abreast of industry standards.

We are fully insured. We carry a full complement of liability, completed operations, workmen's compensation and auto insurance for your protection and peace of mind.

We are reputable. We are known for safe, quality installations and maintenance at honest pricing.

We are reliable. Our customers know if they have an electrical emergency, they can call us and we will be there in a timely manner.

We never leave a job half-done. We aren't finished until the job's done right, and that means right down to the clean up, too.

We are one of you. We live and work in the North Shore. You are our neighbors and our friends. We are here for you.

Make Romitti your first call when you need electrical work.
